

New Students

Are You Unable to Get into a Course Planning Session?

The Spring 2011 registration period is well underway.
Please check your e-Services account to determine your registration date and time.

So, what should you do next?

1. Watch the informational video on the home page of our Counseling website:
www.crc.losrios.edu/counseling
2. Select some possible classes for your first semester:
 - Depending on what your academic goal is, use either the **CRC Graduation sheet** (AA/AS); **CSU Transfer sheet** (CSU Transfers only); or **IGETC sheet** (UC or CSU transfers) to help you identify possible classes.
 - If you are interested in **ESL classes**, use your Assessment Course Placements to help you pick your classes.
 - If you are interested in a specific **Certificate**, look for the classes that are required for that program in the Catalog. You can use the listed courses like a checklist.
 - PE and personal activities courses (PACT) may satisfy general educational requirements and may be transferable to a four year college.
3. Enroll in an available course that **does not have a prerequisite** requirement.
 - Check the online class schedule or college catalog to find course descriptions and meeting times.
 - Go to your eServices account to register for classes. If you need assistance with eServices, go to the Information Desk at the College Center **OR** view the online tutorial at the following web address: http://www.losrios.edu/lrc/eserv_faq.html
 - You must be prepared to pay fees when you enroll in class.

By completing a course in the Spring 2011 semester, you will be classified as a continuing student in the Summer/Fall 2011 terms. **Continuing students receive priority 1 registration each semester.** This will be helpful in securing classes in future semesters.

4. Set up a counseling appointment to develop your Student Educational Plan after **January 21, 2011**. Counselors will work with **enrolled students** to help them plan their Summer/Fall 2011 terms and beyond. Call **916-691-7316** or go to **L-200** to schedule an appointment.
