

ISIS[®]
PHARMACEUTICALS

2012 Paid Summer Internship Program

Isis is a dynamic company that offers a team-oriented, highly participative work environment. Employees benefit from a creative exchange of information with peers and management through project team meetings and seminar presentations. We promote independent thinking and afford unique opportunities for motivated individuals.

We are committed to encouraging students who have an interest in science to continue to pursue that interest by providing opportunities for exposure in a scientific focused business and culture.

Internship opportunities are offered in various fields, such as Pharmacology, Biochemistry, Cellular and Molecular Biology, Medicinal Chemistry, Analytical Chemistry, Process Chemistry, Oligonucleotide Manufacturing, Pharmaceuticals, Toxicology, and Pharmacokinetics. Students work under a practicing professional who provides guidance and mentorship during the internship program.

Program Highlights:

- Paid positions
- Designed to complement a student's undergraduate studies with relevant, hands-on industry experience
- End of program poster presentations
- Travel/housing assistance available for eligible, out-of-area interns

Requirements:

- MUST have a High School Diploma or GED
- MUST be currently enrolled in a U.S. Scientific Undergraduate Degree Program and not graduating prior to the completion of the Isis internship
- MUST be able to begin internship between 5/29/2012 and 6/11/2012
- Able and willing to commit to a minimum 40 hour work week and work through 8/17/2012
- Good communication skills and the ability to work both independently and with others
- Organized, self starter with good problem-solving skills
