Well-Known Nature Photographer to Speak at CRC

The community is invited to attend a photographic journey with well-known nature photographer George D. Lepp at Cosumnes River College. Lepp will share his most striking images February 13, 6:00p.m. to 9:00p.m. in the recital hall.

Lepp is one of North America's best-known contemporary outdoor and nature photographers, and a leader in the rapidly advancing field of digital imaging. He is the author of many books and the field editor of both *PC Photo* and *Outdoor Photographer* magazines, where his "Tech Tips" column is widely read. Lepp was chosen by Canon USA as one of the first members of its Explorers of Light and Print Masters programs, which feature the industry's most influential photographers.

Prior to Lepp's lecture, there will be images on display from 2007 Pulitzer prize winner in feature photography and Sacramento Bee photojournalist, Renee Byer. There will also be the chance to enter a raffle for one of Lepp's prints.

This event is free and open to everyone. For more information, contact Jim West, professor of photography, at (916) 691-7346.
