Our Commitment
Cosumnes River College has provided quality educational programs and services to a diverse community for more than 40 years. Established in 1970, the college adheres to its motto, “Seek Knowledge,” by offering a complete lower division university transfer program, as well as a variety of professional and technical programs for students seeking career-related education.

Cosumnes River College has emerged with very much its own identity, small enough to offer personalized attention, yet large enough to offer a comprehensive postsecondary education to the community it serves.

Our Students
“CRC helped me grow intellectually, academically and personally and when I came here my mindset was completely different. I’ve gained a lot of confidence. There are so many opportunities here.”

– Gabriela Castillo
Political Science Major

Vision Statement
Cosumnes River College is an innovative educational and community center that prepares and empowers students to realize their unique potential to transform their lives and contribute to a just and democratic society as global citizens. CRC strengthens the cultural, social, and economic well-being of the region through its development of an educated and engaged citizenry whose decisions are informed by intellectual inquiry and scholarship, a pluralistic world view, and respect for humanity and the environment.

Access and Success
Cosumnes River College continues to expand its facilities in an effort to promote access and growth for students. The newest project is a 2,755 square foot Art Gallery located on the west side of the performing arts complex. As the only art gallery in the south Sacramento area, this facility will be a huge asset to the community. The $2 million Art Gallery, which was funded by a local bond measure will feature skylights, lighting controls and moveable walls for accommodating a variety of displays, and an outdoor plaza for sculpture. Once opened in Summer 2014, artists from the college and community will be featured.
