Cosumnes River College is an innovative educational and community center that prepares and empowers students to realize their unique potential to transform their lives and contribute to a just and democratic society as global citizens. CRC strengthens the cultural, social, and economic well-being of the region through its development of an educated and engaged citizenry whose decisions are informed by intellectual inquiry and scholarship, a pluralistic world view, and respect for humanity and the environment.

Vision Statement
Cosumnes River College has emerged with very much its own identity, small enough to offer personalized attention, yet large enough to offer a comprehensive postsecondary education to the community it serves.

Access and Success
Cosumnes River College is modernizing and expanding its facilities, including a permanent center in Elk Grove. The Elk Grove “mini-campus,” which will open in fall 2013, will provide students and local residents access to quality education close to home and work, and will help reduce traffic and improve air quality. The success of our students is paramount and we know up-to-date learning environments can help students reach their goals.

Our Commitment
Cosumnes River College has provided quality educational programs and services to a diverse community for more than 40 years. Established in 1970, the college adheres to its motto, “Seek Knowledge,” by offering a complete lower division university transfer program, as well as a variety of professional and technical programs for students seeking career-related education.
