Create your own work of art (drawing, painting, sculpture, story, poem, play, instrumental music, song, etc.) based on assigned text. No projects that require the use of a computer will be accepted.

Then, write a short paper (one to two pages) that answers the following questions:

- What was your process in selecting the text and creating the work of art?
- Do you think that your work of art is primarily an interpretation of the text or a response to the text?
- How does your creative project interpret and/or respond to the text?
- What did you learn (about the process, about the text, about your work of art, about yourself) through completing this project?

You must bring your creative project to class and turn in the assigned writing to Canvas on **Weds, April 18, 2018** to get credit. We will review the creative projects in class as a means of reviewing the reading material. EXTRA CREDIT will be awarded to the most creative project.
