Person Completing form: Emily Bond

What Program Student Learning Outcome(s) (PSLO/s or PSAO/s) will your Department assess this semester?
Note: In Spring/Fall 2012, the librarians revised their Library Service Area Outcomes. We are planning assessment based on one of these revised outcomes. SAO: (Discovery): The CRC Library facilitates the discovery of information in all formats through effective use of technology and organization of knowledge. In the spring 2012 semester, the librarians assessed our current Library Information System, and found that we needed to replace or upgrade it in the near future. The librarians will be continuing to assess this SAO by researching and evaluating alternative systems to replace our current LIS. Our current system is becoming obsolete in terms of technology and functionality. In order to meet research needs of our

What course(s)/activities in your program address this PSLO/PSAO?
We have already done some pre-assessment of our current library system in order to determine the need to explore alternative systems. We assessed our current program processes (particularly staff processes) through direct observation and through staff and student assessment of their interactions with the current library system. In order to complete this assessment of alternative systems, we will be using program processes (staff utilization of the library system) and student searching needs to guide our assessment.

Which activities will you utilize to assess the PSLO/PSAO?
Direct observation of actions and performance --------- 1.00
Assessment of student products/creative works ---------
Check of program records --------------------------
Assessment of interactions ------------------------ 1.00
Guided Discussions ------------------------------ 1.00
Other ------------------------------------------ 1.00

Who will participate?
Andi Adkins-Pogue, Emily Bond, Mark Ford, Rochelle Perez We will assess alternative systems in conjunction with our counterparts on other Los Rios campuses. We will also gather feedback and lead discussions with other library staff members.

When will the assessments be completed?
The goal for completing the assessment is the middle of Spring 2013 semester.

What is the plan for collating the data? Who will do it? When will it be completed?
On this campus, the full-time librarians will collate data that we have collected by the end of Spring 2013. We will research and share data with the other district librarians. Collating and disseminating data will be organized through the Systems Taskforce.

What is the plan for analyzing, summarizing and reflecting on the data? When will this take place?
CRC Librarians in conjunction with other district librarians will analyze, summarize and reflect on this data by the end of Spring 2013 semester. By the end of the academic year, we hope to be prepared to make a recommendation of a new ILS.

Submission Date: September 27, 2012
